1 This week

12.65%	+1 bps	+27 bps	−186 bps
ASBI, week of 2 November 2026	On the week	On the month	On the year

Week on week, Egypt rose 21 bps to 25.91%, Ghana fell 7 bps to 9.60%, Nigeria fell 5 bps to 15.80%; the other 7 markets had no new one-year result.

The index is the equal-weighted average of the latest 364-day Treasury bill rate in 10 markets. Egypt pays most (25.91%) and Tanzania least (6.13%). The series high is 19.82% (11 March 2024) and the low 9.27% (27 July 2020).

Method, sources and how to cite

Method

The Afronomics African Sovereign Bill Index is the equal-weighted average of the latest 364-day Treasury bill rate in 10 African markets, read every Monday. A market's rate stays in the index until its next auction.

Rates are as each central bank publishes them; the measure differs by central bank (weighted average, cut-off or stop rate) and is shown on each market's page.
